Eyebrow Tattoo Consult \$65

A consultation to discuss whether tattooing is for you and which method would be best for you. Includes our signature Eyebrow Makeover.

Feather Touch Volume Brows \$600

Perfection Visit \$150 Colour Boost 6 - 12 months \$220

Some may require a perfection visit 4-6 weeks after a colour boost \$75

Imagine the convenience of not having to apply eyebrow products daily to achieve that gorgeous arch we all want. Feather touch tattooing allows you to achieve that well defined, arched brow that frames the eyes beautifully. Tattooing soft hair like stokes, we achieve the perfect brow by filling in areas that have gaps or scars, where the hair does not grow back or for people wanting to create more fullness and definition.

Ombre Brows \$700

Perfection Visit \$190 Colour Boost (6 - 12 months) \$250

Ombre brows can be used to create a soft shadow of colour gradually blended from light to dark. This method creates a similar result to the effect achieved with an eyebrow powder. This technique is a great option for any age and skin type, especially people with oily skin types.

Cashmere Brows \$800

Perfection Visit \$190 Colourboost (6 - 12 months) \$250

A combination of both the Ombre and Feather Touch Volume techniques to create a luxe natural finish brow.

Eyebrow Tattoo Corrections From \$600

Clients with previous cosmetic tattoos require a consult for an accurate quote, and may need more perfection visits. Enquire within. In some cases eyebrow lightening is required.

Scalp Micropigmentation

Price upon consultation

Pigment is used to replicate the hair follicles on your head to give the appearance of a natural hairline, and a closely shaved head. Suitable for people with any type of hair loss, whether it is a small area or a full head.

Hairline Restoration

Price upon consultation

A technique to replicate the hairline suitable for both women and men, soft hair like strokes are implanted into the skin to give the appearance of a fuller and thicker hair line or thinning areas of hair.

Areola Restoration

Price upon consultation

For woman who have undergone mastectomies, other breast surgery, or may have irregular or fading areolas.

Consultations for Scalp Micropigmentation, Hairline Restoration and Areola Restoration are 10 minute complimentary appointments

Tattoo Removal

The Swiss colour method of tattoo removal is the latest technology of its kind, its more gentle on the skin when compared to other methods and will remove all colours of tattoos. Using a micropigmentation device the solution is implanted into the skin, the tattoo pigment then rises to the surface of the skin. The treated areas will flake and scab taking the pigment off with it. Multiple treatments are needed for tattoo removal, depending on size of tattoo and pigment/ink used.
